

Rainbow Serpent

Materials:

Long woolen socks (as many as you want the snake long)

2 Googly eyes

Some red material to make a small fork tongue

Toilet Rolls

Rainbow 8 ply wool

Glue Stick

Sew the socks together, making one long snake. Sew on the googly eyes at the end of one end making a face. Add some stuffing to the face. Sew the sock in a few stitches to make the mouth go in - like a puppet and sew a piece of red material cut into a fork for his tongue. Have the children finger knit the wool. When they have knitted a long enough line, glue it around the toilet roll. Thread the toilet roll onto the socks. At the end of the snake, add a little bit of stuffing and sew sock together.
